

DATA COLLABORATION AGREEMENT

Small Monitoring Demo

Parties

Company A: NorthSea Operations AS (data owner and host)

Company B: Fjord Analytics AS (analysis partner)

1. Purpose

Company B may analyze Company A's compressor telemetry only to detect anomalies.

2. Data Location

Company A must keep raw compressor telemetry inside its computing environment.

Company B may not export raw compressor telemetry outside that environment.

3. Outputs

Company B may receive only aggregated anomaly counts that Company A has approved.

4. Confidentiality

Both parties must protect confidential information from this collaboration.
